COMMENTS

“An incredible effort by everyone, which involved a lot of team work. We learnt new things about the filming process and camera effects. The satisfaction at the end was worth it.” Ronan- Team II

“I thought the filming process was an awesome opportunity for us to express ourselves through media and to bond some more, being together for sixteen hours straight. It’s an experience I would definitely go through again. The outcome was brilliant from both groups. A day we’ll never forget!” Katrina – Team I
